

Enhance your industrial maintenance expertise with Fort Worth's most trusted corrugated packaging company. Experience a maintenance career offering industry leading pay, quarterly bonuses, and ongoing training opportunities and find out why our many long-term employees love to continue here.

Leaman Container, a trusted name in packaging since 1974, is seeking an **Industrial Maintenance Technician** for the facility in **Fort Worth, Texas**.

Schedule:

- **Monday – Thursday; 2:30pm – 12:30am**
 - Rotate between 1 weekend of overtime and 2 weekends off. ***As someone working Monday – Thursday, you will work on Friday for your overtime days and get off on the following Monday.***

Benefits to you of this position:

- **Competitive Compensation: \$32.00 – 35.00/ hr.**, depending on experience
- **Full Benefits: Medical, Dental, Vision, 401(k), Tuition Reimbursement for related education, Cell phone allowance**
- **Excellent job stability:** Family-owned company for almost five decades with many long-tenured employees and a highly supportive team.
- **Great team environment:** Team members enjoy a less stressful, more reasonable pace of production than mass manufacturing, as well as bonus perks and prize drawings.
- **Ongoing training opportunities**

Minimum Requirements

- **If you have proven maintenance experience in a manufacturing environment, Leaman Container wants to hear from you!** *5 years of industrial maintenance experience preferred. Experience in a relevant manufacturing environment (steel fabrication or blow molded plastics) is a plus!*
- **Ability to read and interpret mechanical blueprints and electrical schematics.** *Hydraulic and electrical maintenance experience required.*
- **Must know how to weld and use a cutting torch**
- **Must own basic hand tools** required for daily maintenance responsibilities (power tools provided).

Duties & Responsibilities

The Maintenance Technician is responsible for maintaining all converting and corrugating equipment to minimize downtime. Key responsibilities include:

- Practice safe work habits at all times.
- Demonstrate ability to parallel all rolls, make all required settings and adjustments for optimum equipment performance to manufacture quality products.
- Demonstrate ability to teach other maintenance classifications in all qualification requirements and proper maintenance procedures.
- Demonstrate ability to troubleshoot programmable controllers and troubleshoot and repair all A/C and D/C drives and their control systems use.
- Demonstrate ability to use all aspects of the maintenance software program.

- Demonstrate ability to plan and schedule maintenance work, assign work to other maintenance classifications according to their abilities and limitations.
- Follow up all work in order to ensure repairs and work are performed properly.
- Maximize the utilization of equipment by maintaining the machinery to run at available capacity and speed.
- Complete all paperwork neatly, correctly, and in accordance with Company guidelines.
- Willingly work all necessary hours and shifts.
- Help maintain good housekeeping in work areas.
- Comply with all company policies and procedures, including safety and maintaining good housekeeping.

About the Company: Leaman Container is a manufacturer of custom corrugated packaging located in Dallas-Fort Worth, with over 40 full-time employees, four buildings at 89,000 square feet, 13 machines, and a warehouse full of packaging products. We take pride in our stringent quality control standards that minimize waste and led us to several nationally ranked safety records.

All qualified applicants will receive consideration for employment without regard to race, sex, color, religion, national origin, sexual orientation, gender identity, disability, veteran status or any other characteristic protected by federal, state or local law.
